

Business Relocations

Keeping London Moving

Relocating your business can be a daunting prospect but no matter the size or location of your organisation, we can help to take the stress away and guarantee a smooth transition into your new premises.

From initial consultation and planning, through to completion, Ede's will work closely alongside you and your business to make sure that your move is fully understood and delivered to your precise requirements.

Our outstanding levels of service and proficiency are well known throughout the industry, and our team of experienced staff will always be on hand to ensure that your project is delivered on time, on budget and with minimal business downtime.

Business Relocations are at the heart of our business, and we fully understand how critical it is to ensure a smooth transition into new workspaces. Our approach is to recognise that every relocation project is unique, and as such, our service is always tailored to best suit not only your individual requirements, but also the personality of your business. At Ede's we are dedicated to provide solutions for your office relocation needs, incorporating our capabilities in project management, removals, and IT services, as well offering a range of associated services such as storage, recycling, filing surveys, asset registration and storage, alongside archive management.

We are proud to have attained an unprecedented reputation within the commercial relocation industry, and have been awarded the title of **COMMERCIAL MOVER OF THE YEAR** by the British Association of Removers on seven separate occasions.

Our Services

Storage Services

We offer a wide range of managed storage options, from open space stores, dedicated units, racking storage, pallet store and archive storage, we have you covered.

Our storage facilities are clean and secure, equipped with advanced motion detection alarms and have modern fire-detection technology installed. 24/7 CCTV and security patrols provide the highest levels of security, allowing you the peace of mind that your possessions are safe and protected.

IT Relocation Services

We offer one of the UK's most comprehensive computer relocation and installation services.

EDIT is the Information Technology division of EDE's, providing full IT relocation services for our clients, including a comprehensive computer de-commissioning and re-commissioning service.

The service includes the relocation of Servers, Workstations, Monitors, and all associated items.

Recycling / Re-use

Most of our clients have a need from time to time to recycle their older business assets and redundant office furniture. We collaborate closely with them to ensure that this is undertaken in the most environmentally friendly and socially acceptable manner.

Maintaining our zero to landfill policy is achieved by working in direct partnership with accredited Waste Management Companies who specialise in extracting re-usable material from general waste. They share our commitment to being as environmentally focussed and sustainably active as possible, whilst offering the most cost-effective solutions.

Furniture Supply

Our team of furniture specialists have an in-depth knowledge of the furniture industry and are on hand to provide you with the latest innovations, specifications and technical developments. We will work with you to establish your specific needs, both in terms of design and budget, and will deliver the very best furniture package to suit your needs.

Archive Storage

Security is a priority for every business and guaranteeing that your organisation has access to a reliable and secure document storage service is essential.

We work with businesses and organisations across the UK, providing unrivalled Records Management Services for our clients across multiple sectors.

By choosing us to fulfil your document storage requirements you will enjoy a host of benefits including, freeing up valuable office space whilst improving the security and accessibility of your archived documents and records.

Specialist Relocations

We undertake many specialist relocations for Local Governments, Museums, Hospitals, Laboratories, Schools, Colleges, and Universities, ensuring minimal impact to business continuity.

With over 150 years of experience, our flexibility and expertise in managing these delicate operations allows our customers the peace of mind that we will always provide the best possible levels of service and a stress-free relocation, no matter the size or nature of the works required, and because they are confident that they will receive highly qualified, trained, attentive, and polite professionals, who pay particular attention to the sensitive surroundings in which they are working, our customers choose us for their specialised relocation

ESG

We pledge to conduct our business activities in the most socially and environmentally responsible manner, thereby benefitting our customers and the health, safety, and welfare of our employees.

We commit to maintain and enhance our inclusive society values that celebrate diversity and bolster the integrity of our business processes.

Our ethical sourcing of products culture ensures safe and fair working conditions for every individual associated throughout our supply chain, conforming with all relevant and current legislation, guaranteeing full compliance with labour standards and human rights in the workplace.

We work in partnership with suppliers who share our ethos and business ethics to promote sustainable business practices that promote social value and minimise environmental and community impacts.

Quality

We are extremely proud of the quality of service we provide, and this is demonstrated by attaining the best accreditations available within our industry.

Our host of accreditations including! ISO 9001, 14001, safe contractor and FORS, places us at the forefront of businesses who can provide your business with high quality, proactive, value for money, dedicated service. These accreditations show that we have not only exceeded standard practices, but they are also testament to our drive to continually improve our service, and remain the industry leader.
