

Plant, Machinery & Heavy Items

Heavy machinery relocations and plant installations

We have the resources and the expertise to undertake all types of industrial removal projects from one off plant machinery moves to complete factory relocations.

We can safely relocate all types of heavy items from plant and factory equipment to air handling units. Our team of highly trained experts, site supervisors and operators will ensure that dismantling, packing, loading, unloading and reassembly is delivered on time, on budget and with minimal business downtime.

Equipment which we can move includes:

- Tanks and compressors
- IT hardware
- Pumps & motors
- Conveyors
- Air handling units
- Plant and factory equipment
- Racking
- Arcade and Vending machines
- Industrial freezers & fridges
- Centrifuge

Safe removals and relocations

We are specialists in the careful and secure relocation of safes.

No matter how heavy or how valuable the load, we ensure that your safe is relocated to its destination in the same condition that it began its journey.

As one of the country's largest safe removal and installation specialists we can deliver across the country and into Europe.

Utilising the latest specialist equipment for safe removals and installations such as electric stair climbers and crane based (HIAB) vehicles, we guarantee the secure collection, relocation, and delivery of your high value items, including:

- Cash Safes
- Strongboxes
- Secure filing cabinets
- Safety deposit boxes
